Flexible GI Endoscopy

October 23-24 and 25-26, 2023

Day 2

8:00 am *Breakfast*

8:30 am Small and large Intestine: Normal and Disease (Leib)

10:00 am *Break*

10:30 am **Laboratory 4:** Upper and Lower GI endoscopy (Live Dogs)

1:30 pm *Lunch*

2:30 pm Wrap-up, Review of Foreign Body Removal and Q & A

3:30 pm *End of Course*

Note:

Cadaver lab. One demo followed by 20 min each person for scoping and then shared free group removal of foreign bodies.

Live dog. One demo on colonoscopy followed by 15-minute rotations per person and 45-minute rotations per station going clockwise. Three rotations are colonoscopy if group elects to do colonoscopy, if not then convert dogs to upper GI endoscopy. (groups should divide up if they want to do colonoscopy or not)
